Erratum to: On atomic composition as identity

Roberto Loss

Erratum to: Synthese

DOI 10.1007/s11229-019-02295-6

(PWCP) and (ACP) in section 5 should be reformulated as follows:

(PWCP) $\exists x \exists y(\phi x \wedge \phi y \wedge x \neq y) \rightarrow \exists Y \exists z\big(zSFu\phi \wedge \forall x(x \prec Y \leftrightarrow x < z)\big)$

(ACP) $\exists x \exists y(\phi x \wedge \phi y \wedge x \neq y) \rightarrow \exists Y \exists z\big(zSFu\phi \wedge \forall x(x \prec Y \leftrightarrow (x < z \wedge Ax))\big)$

As an effect of this, throughout the paper the theories labelled 'CAI+(PWCP)' and 'ACAI' should be understood as assuming the following 'No Improper Plurality' principle:

(NIP) $\forall X \exists y \exists z(y \prec X \wedge z \prec X \wedge y \neq z)$
